The Bay Area Air Quality Management District, in cooperation with the Metropolitan Transportation Commission and the Association of Bay Area Governments, has recently released the public review draft of the Bay Area 2005 Ozone Strategy.

The 2005 Ozone Strategy is a comprehensive document that describes the Bay Area's strategy for compliance with State one-hour ozone standard planning requirements, and is a significant component of our region's commitment to achieving clean air to protect the public's health and the environment. The strategy aims to reduce emissions of ozone-forming pollutants from transportation sources, industrial facilities, commercial processes and other sources.
